SUMMARY

Motivated and detail-oriented Junior Software Engineer with hands-on experience in web development and skilled in integrating AWS services into scalable applications.

Passionate about continuous learning and staying updated with emerging technologies in software development and cloud services.

EDUCATION

BSc Hons Computing and IT (Software)   2023 - Current

The Open University   Milton Keynes, UK

EXPERIENCE

Software Engineer Starter   11/2024 - Current

West Northamptonshire Council   Northamptonshire, UK

- Develop web forms using Jadu with HTML, CSS, and JavaScript.
- Integrate AWS services such as Lambda, DynamoDB, Beanstalk, and EC2 into applications.
- Manage and resolve tickets related to bug fixes, features, and client requests.
- Collaborate with cross-functional teams to ensure timely project delivery.
- Conduct unit and integration testing to identify and resolve issues.
- Continuously learn and apply new technologies related to software development and cloud services.

System Support Officer   07/2024 - 11/2024

Housing21   South Region, UK

- Acted as the primary contact for care system software in the South Region, providing support via phone, in-person, and MS Teams.
- Managed project lifecycle from planning to go-live, ensuring timely implementation.
- Led User Acceptance Testing (UAT), coordinated data migration, and provided feedback.
- Delivered training during go-live for seamless integration.
- Reported progress, addressed concerns, and communicated updates to Regional Patch Managers and Project teams.
- Recommended improvements and advocated software benefits across the business.
